Nice aesthetic, love the 2d/3d blending. Hopefully money achieved from this can go towards a full fledged rogue-like as I feel with this style and added depth, we could have a solid throwback roguelike game.

For \$1 -- why not?

<https://www.youtube.com/watch?v=VLwxVm77p6c>. best game ive ever played
should be in esports instead of LoL and CSGO etc
id give u all my money i i would win some
pls give me more !

I ofc bought this game if anyone would ask. VAC = Valve Allow Cheating. Nice aesthetic, love the 2d/3d blending. Hopefully money achieved from this can go towards a full fledged rogue-like as I feel with this style and added depth, we could have a solid throwback roguelike game.

<https://www.youtube.com/watch?v=VLwxVm77p6c>. It's ok. I would recommend waiting for more content before buying.. It's ok. I would recommend waiting for more content before buying.. This game is great for short periods of waiting, or if you're nostalgic for sega genesis roguelike.
5/10 worth its price
